Jacob Elbaz

Software Engineer | Full-Stack/Front-end Developer

Location: Ashdod   Tel: 0503013489   Email: jacobelbz@gmail.com

EDUCATION

B.Sc Software Engineering | 2019 - 2023 | Sami Shamoon College of Engineering (SCE)

- GPA: 86+

EXPERIENCES

Freelance — *FullStack (MERN) / React Frontend Developer,* 2021 - NOW

By exploring documentation and online resources, I self-trained in web development. I swiftly acquired the skill to learn new technologies and cultivated disciplined work habits. As a result, I freelanced for many companies, completing diverse missions as a web developer.

SCE, Ashdod — *Student Advisor,* 2021 - NOW

As a student advisor, I faced clients (candidates and students). I brought them help and enlightened them on their journey as students.

IDF — *Paratrooper,* 2014 - 2017

Thanks to my military service as a combatant, I acquired values such as mutual aid, seriousness, team spirit, and a positive attitude.

PROJECTS

- **Work Company Website:** It includes many forms sent to the company by email and information about the company. Using **React**, **Material UI**, **EmailJS**, and **Helmet**. *Link here.*
- **Event Website:** It includes a confirmation form about participation in the event as a guest. The organizer can access the list of responded guests and modify it. Using **React**, **Bootstrap**, **MongoDB**, **Node.js**, and **Express**. *Link here.*
- **Komin:** Social Network App created with **React Native**, **TypeScript**, **MongoDB**, **Node**, **Express**, and **Jest**. Includes post management and a chat app using **Socket.io**. *Link here.*

More projects on my GitHub and Portfolio.
