# Jacob Elbaz

## Software Engineer

Location: Ashdod   Tel: 0503013489   Email: [jacobelbz@gmail.com](mailto:jacobelbz@gmail.com)

## EDUCATION

**B.Sc Software engineering** | 2019 - now | Sami Shamoon College of Engineering (SCE)

- GPA: 85+

## EXPERIENCES

**Freelance** — *FullStack / Frontend Developer*, 2021 - NOW

By exploring documentation and online resources, I self-trained in web development. I swiftly acquired the skill to learn new technologies and cultivated disciplined work habits. As a result, I freelanced for two companies, completing diverse missions as a web developer.

**SCE, Ashdod** — *Student Advisor*, 2021 - NOW

As a student advisor, I faced clients (candidates and students). I brought them help and enlightened them on their journey as students.

**IDF** — *Paratrooper*, 2014 - 2017

Thanks to my military service as a combatant, I acquired values such as mutual aid, seriousness, team spirit, and a positive attitude.

## PROJECTS

- **Work Company Website:** I made this landing page for a French work company. It includes many forms sent to the company by email and information about the company. *Link* [here](#).
- **Event Website:** This is a site where you can find all the information about an event (such as a wedding). It includes a confirmation form about your participation in the event as a guest. The organizer can access the list of responded guests and modify it. *Link* [here](#).
- **Komin:**  Social Network app created with *React Native* and *TypeScrip*t. It includes post management and a chat app (using *socket.io*). *Link* [here](#).

*More projects on my [GitHub](#) and [Portfolio](#).*

## SKILLS

**Programming Languages and Technologies:** JavaScript, TypeScript, React, React Native, Node.js, Express, MongoDB, Java, Python, SQL, Linux basics

**Knowledge:** OOP, Design Patterns, Data Structures, Databases, Algorithms

**Languages:** English (excellent), Hebrew (fluent), French (native)

## HOBBIES: Gaming, Coding, Reading, and Traveling
